You are the light of the world. A town built on a hill cannot be hidden. — Matthew 5:14

Governors

The Holy Spirit has compelled me to spiritually attack ... to destroy the political career ... of Maine's Governor. We're going to hold a pre-launch gathering tomorrow morning at the Governors restaurant in Presque Isle. And then launch the Crusade Thursday morning in the Maine State House. **This isn't political. Our Crusade is spiritual. Paul Madore and I are doing this together.** Many Maine people have gripes with Janet Mills and the Mills family. For decades this family from the Farmington area has lorded over Maine politics. No more. **In coming days, weeks, months and years I'm going to be detailing their crimes.** We're going to provide the public with all the reasons they need to end the manipulative rule of this Jezebel. I hope she repents. But even if she does, she and her family still must be thrown out of Maine government. I'm done with referendums, orientations, choices, bean counting and debates. All that jabber has gotten us nowhere. Distractions. **It is very simple. Women who want to force others to write the check for a father's baby murder bill have NO common sense.** They have drunk so much of Satan's kool aid that they are incapable of appreciating the good, the true and the beautiful. They must be cast outside the camp. We must pray for their souls, and hope for repentance. We must move on from them. They use their power in a diabolical way. If you have some policy or legal gripe with Janet Kills then good for you. I support you one hundred percent. You need to call me. You need to email me the details of your complaint. We'll be reviewing them, and if we see merit in your issue then we'll be highlighting it in our Christian Crusade. **We are dedicated to equal justice under the law.** One case that I'm absolutely dedicated to is the plight of Mila. According to her mother (and I believe her) Mila has been sex trafficked by the political and legal elites in Maine government for over a decade. Mila is thirteen years old now. Her mother is a social liberal Democrat. I don't care. She ran for Congress years ago. Lori Handrahan makes a reasoned case against many high-ranking public officials in Maine — but has never been given her day in court. She loves her daughter. If you google Lori's name along with the word "Medium" you'll be able to read pages and pages of evidence supporting Lori's case. She must be given the opportunity to make her case in front of the people/forces that are controlling her daughter. This must be done in an open Court with a jury and an informed public. I don't trust the government. The powers of secrecy that are granted to Health and Human Services agencies in the West are tyrannical. Maine's Governor has a duty to fix this problem. Mills obviously has not interest in doing that. She must be removed from office forthwith.

The Impeach Jezebel Janet Kills Crusade is launching Thursday. You Coming? If Not Now — When? Call me. I can't make it any easier than that. My mobile phone even. 1-207-956-0819.
