*for it is God who works in you to will and to act in order to fulfill his good purpose. — Philippians 2:13*

There's no excuse, really. Jesus hasn't returned. **I lost count of how many "prophets" in my lifetime KNEW the date of his return and shouted from the top of their lungs that we needed to get ready for the end. Embarrassing.** The biggest lie I remember was the one connected to the establishment of the pro-sodomy Jewish political entity in the Middle East — Israel. Within one generation of it's founding we'd all be outa here (second coming of Jesus Christ predicted in the Bible) ... nothing to worry about. I think we reached the one generation out date ten or twenty years ago. I don't know with precision because I never paid real close attention to eschatology. I was too busy fighting the bad guys in the here and now to worry about what's coming. I'm not trying to pick a fight with folks who are reading the tea leaves in the Bible. Go ahead and do that if you want. I am, however, trying to pick a fight with Christians who are doing nothing to save our nation and defend the moral law of Jesus Christ, God the Father and the Holy Spirit. I'm more concerned about the Trinity than I am about the Tribulation. **Your smart phone is not the mark of the beast ... OK?** And that is the only weapon you need to save the world from Soros and his demons. That and a willingness to piss off your family with reason, the gospel, love, beauty and truth. I told a group of 20 Christians in Presque Isle, Maine Wednesday morning that if every one of them used Facebook as a tool for preaching the gospel we'd be rid of Jezebel Kills by the end of the year. That's not a promise or prediction. It's just a gut feeling. **The reason we don't tell the truth on Facebook is that we fear for our job and "good relations" with our family, fellow church members and employees.** China is installing tens of millions of cameras to enhance the surveillance of their people. That will happen here if we don't find the courage to tell the truth on Fakebook. **And when they ban us we must tell the whole world.** President Trump is gathering details on the social network banning. My guess is that he will analyze the data he collects and act on it at the Federal level. Your honesty on Facebook can become part of the solution to the West's crisis. **You gave this new tech to your kids. They learned it without your oversight or parenting. You see the whirlwind you are reaping in the loss of Christian faith in your own children.** Do you really think it's going to be any better with your grandchildren if you don't repent and start using this technology well? Generations to come need your wisdom. We must work and fight for our children's future. If we continue to rest on our World War II laurels you can already see what's developing. Do you want your children to live in the Orwellian dystopia the Left is promising and that the political/religious right is allowing? I guess so, based on what I'm seeing and hearing. Not me. I'm going to fight.
