*My little children, these things write I unto you, that ye sin not. And if any man sin, we have an advocate with the Father, Jesus Christ the righteous: — 1 John 2:1*

## Sin

**The government's legal system isn't going to save you.** It has become so bad, in fact, that trusting our American system of government is a very foolish thing to do. American law and politics teaches only corruption and evil. Our government is absolutely wicked. It has been this way for a long time ... since we officially gave up on Jesus Christ. **What good does it do, for example, to swear on a Bible in a court of law when the court itself is designed to ignore the facts contained inside the book?** Proof, you ask? The one name guaranteed to get you laughed out of any public square in our post-modern, globalist culture is "Jesus Christ." Before I was born God's name had been turned into a swear word among the working class. So, it isn't just in a court of law where argument rooted in the very WORD Himself will get you expunged, it is in the broader public spaces of our popular culture. **The crisis we are facing is not primarily political. It is religious.** We don't turn to religion to help us deal with the eternal consequences of wrong-doing ... of sin. We look to governments and corporations. Their assemblies and boards of directors write the rules that govern everything we know, learn, speak and do. And they are motivated by self interest and power. How else do you explain the total collapse of freedom of thought and association? We don't seek forgiveness for our sins in confession and absolution anymore. **Now, there is no forgiveness or absolution. You either embrace the transvestite who can spin a more entertaining childhood yarn than any mother known to man or you go to jail. You're a hater if you don't love your local sodomite. If you deign to even hint that they should keep it to themselves you're now a criminal. All around me I see the culture of Sodom taking hold. God's destruction of that hell-hole was a mercy, just like Noah's flood. Don't even begin to imagine that human culture cannot once again descend to such levels of evil and perversion. Depending on your eschatology you may believe it will go much lower. Regardless, **Christianity and common sense are clear.** Good people do stuff. Weak people look the other way, and pretend everything is going to get better as long as they get theirs. **Weak people find excuses NOT to confront evil.** Weak thinking has gotten us to this point. *It is long past time for us to start reasoning together once again.* Nobody on the planet is my enemy until they make themselves into one. I am curious about everyone on the planet. I want to learn about them, and appreciate what is good, true and beautiful in them, their art/music etc. **I hate this idea of perpetual war that has taken hold of our imaginations. I need to draw close to my advocate with the Father. Come Lord Jesus, come.****
