All sex is good sex as long as it's consensual.

The American Way

After professionally battling the "gay" lobby in Maine for many years I realized that I was up against a system of the world empowered by the idea, "All sex is good sex as long as it's consensual." One of my first battles in the war was with the Maine Attorney General.

He was using his office to push this idea in Maine's public schools using after school clubs. The students gathered under the banner of stopping "hate." I met with the Attorney General in his office to discuss the problem. I told him that his effort represented hatred of Christian ideas about sexuality. He had no answer, and went right on pushing his evil agenda.

I worked to get his program defunded by the Legislature. I failed. "Good" Republicans told me that the program was innocent, and the schools needed all the money they could get.

There's really only one thing that matters to Americans now. Sex. We are especially dedicated to perverting our youth. America is easy to figure out ... All sex is good sex as long as it's consensual. This idea is derived from our ideas about religion. Every religion is a good religion as long as it's consensual.

There's no truth ... no right and wrong.

Every debate ends the same way. The individual gets to choose his own religion, gender and sex partner. And all of these can change as often as the urge (demon) demands.

Are you as tired as I am of "reasoning" with these demons? Are you tired of news and entertainment presenting 24/7 sex. I'm sick to death of it.

The BBC is even using Patrick O'Brian's stunning work of fiction set in early 17th century Europe to promote modern ideas about sex. I shouldn't be surprised since England is probably going to sentence an innocent man to death today. Tommy Robinson's crime is standing up to rape gangs in his hometown of Luton.

O'Brian wrote a series of twenty novels about a naval ship's captain and his surgeon. I downloaded a recent BBC dramatization of the first in the series, "Master and Commander." The dramatization was much shorter than the book. Rather than feature the exquisite battle scenes and character development in the book the drama leads the

mind to a not-so-subtle consideration of sexual adventures, including bestiality. I had to stop listening it was so offensive.

It's everywhere. Everyone talks about it. And more and more people are obviously doing it wrong.

Sex is not reserved for the marriage bed anymore. And that is where it is most gratifying and civilizing. Christianity brought that idea to culture and family. Christianity developed in Europe, through the church, an effective "society" for the enforcement of this high moral ideal. The Roman Catholic Church developed such lofty ideals about sex that it decided to require chastity of her Priests. As far as I know the Roman Catholic Church still teaches that birth control is immoral. And in Maine they did such good work fighting baby murder (abortion) that the ministry I led was free to focus all our resources on the sodomy fight.

America is hell bent on fixing the problem using multiculturalism and individualism. We are addicted to the idea that society must not impose an absolute sexual ethic on individuals. We've come to think of "freedom" and "liberty" as sexual ideas.

This is the justification for Donald Trump's global crusade to stop violence against homosexuals. He does this at some risk to his reelection. His base is growing restive on all things sodomy. Yet, he continues to support all things "gay."

I don't think he has much to worry about because Christianity is still playing footsie with the sexual revolution. The righteous path forward in response to sexual evil is still narrowing. The broad path to destruction is widening as a result of the confusion pushed into the church by modern ideologies.

The narrow path is God's path and for that reason alone it will prove healthy and victorious in the end.

All sex is NOT *good* sex because it is consensual.

God defines what is good.

Sex inside the bonds of holy matrimony is good.

Amen.
